Thread: [How to record gameplay?](#)

Exodi - January 17, 2016, 4:33 am

Which cables do I need to use?
How do I record it?
Connect the cables to where?
(Something that is free)

I did a little bit (much) research on Google,
but I couldn't find something helpful.

Anyone here?

If you want to record gameplay on PS3 I advise you to get an Elgato. Because you will need to put a device between your PS3 and TV.

I doubt you'll find one for free. You can get cheap ones but it won't do you much justice quality-wise.

Using a Recorder would be the best bet
