Thread: [Infinite Stratos 1080p?](#)

Anbu - January 17, 2016, 3:58 pm

Do you guys know where I can watch Infinite Stratos in 1080p? KissAnime only has 720p. Same with torrents.

Crya - January 17, 2016, 4:00 pm

Check nyaa.se...

They have it in 1080p download.

Lor?d - January 17, 2016, 4:01 pm

Oh no. Because 720p is so horrible!

Anbu - January 17, 2016, 4:04 pm

Just checked and only IS 2 is 1080p. There's a couple that says IS 1 in 1080p in the title, but the actual thread shows a 720p torrent.

(Jan 17, 2016 05:01 PM)That One Random Wrote: [\[CITE\]](#) Oh no. Because 720p is so horrible! My monitor's rez is 3840x2160, so 1080p is bare minimum for me. :(

CorrosiveBlueberry - January 17, 2016, 4:37 pm

720p is all your going to get most likely; because that's all nyaa.se or bakabt.me offers. bakabt.me is just like nyaa however they only allow the highest quality versions of each show to be uploaded, and the highest they have of that show is 720p. of IS 1. so i doubt you'll find a legit 1080p copy anywhere; i'd just get it from nyaa or bakabt, their versions are alot better quality than streaming from kissanime, if your concerned about quality.

Lol i just got banned from bakabt.me for leeching too much; (i never upload or continue to seed things, im paranoid/don't want to get letters or waste bandwidth) although its a public tracker they require upload ratio and such. Most of their copies of shows are ridiculous like 1080p 16 reference frames 20MBps Video quality 10-Bit ; although you can grab HD 8-bit copies there too.

Got it! Thanks! I actually found a 1080p version, but it's more like 720p pre-stretched. I guess I'll just

watch it in 720p.

Dragon. - *January 17, 2016, 4:55 pm*

Check AnimeBytes and BakaBT.

Anbu - *January 17, 2016, 7:05 pm*

Will check! Does MoeTube have IS 1 in 1080p? Ayyy...

Programmargorp - *January 17, 2016, 9:21 pm*

FYI anime is produced in 720p. Watching a 1080 is equal to using a upscaling filter to get it up to the resolution you're watching it in.

TL;DR Be a real man and use XDCC/Torrents and MPC-HC to upscale your videos so they don't look like trash.

RainbowHentAi - *January 17, 2016, 9:28 pm*

Does it really have to be 1080p? I mean I gamed for years on a 240-360p TV and it didn't bug me
