Thread: [RGLoader now supporting 17489 Kernel & 4gb Corona support!](#)

FuZioN - January 18, 2016, 1:00 am

I would like to say first; This would not be possible without NiNJA by team XBLS & Tydye81's constant development, testing, etc. A huge shout goes out to both of them!

RGLoader is now Fully updated to 17489 with Corona 4gb support! A re-release should be on the horizon, if not soon.

PilotMaster - January 18, 2016, 12:18 pm

Thats Nice i like RGLoader :)

Slacked - January 18, 2016, 12:39 pm

Thats great , NiNJA really is the best

Fresh™ - January 20, 2016, 6:31 pm

Ah, so does this loader have anything to do with the deleted gamertags :P

Good to see you got it sorted mate

Waiting... - January 22, 2016, 9:02 am

i dont know what any of that means but i assume it allows you to create those tags. all of you involved are true legends. these jtags are so wonderful when they arent being used to ruin innocent peoples' fun

nabil779 - January 22, 2016, 10:42 am

whats so great about this what can you do?

Scortex - January 22, 2016, 2:10 pm

Funny thing is google would not have this considering its probably something microsoft would rather people not have. This isnt really nothing special unless you guys actually think your gonna make something with this . Only people this is relevant to is ty, blindz, jester, a few others other then that this useless to non skilled retards

RGLoader is now Fully updated to 17489 with Corona 4gb support! A re-release should be on the horizon, if not soon. Been testing this for about 3 months now, most of the bugs are out, its very stable! I expect a release very soon, but there will be a new dash soon aswell..
