Thread: [Amazon Gift Cards](#)

Trading AGC was a huge part of the Currency Exchange section.

Why not add a section strictly for Amazon Gift Card trading?

People are getting these by the minute and trading for BTC so there's really a slim chance of any scamming in that section.

Yeah, how are people getting these ? I've seen so much threads with these lately.

A GC section in general would be nice :)

Well you can't sell any gift card here. AGC is one of the approved and commonly sold.

eWhoring. Exchanging and receiving AGC-s is much easier than using Paypal. Also much safer for both parties involved. ?

This is a good idea, saw few on secondary section but a category only for this would be nice

I posted this in the thread where he announced the closure of currency exchange:

Not sure if Omni would do it or not.

I don't think Amazon only would be viable, it would be gift cards as a whole if he did do it.

Sorry, I'm just not sure I want to do this.
