Hey so I'm ding the trial of Skype Calling for a month, love calling people on it. Is there a way to get it forever or use it whenever I want for free?

Cheers ?

I wish there was, considering this is the main way skype makes money I imagine they do not have many public ways around their payment system.

I do wish I could get a perm phone number with my skype as well..

You can still call inwatts numbers for free, so that gives you some options.

Skype voip is shitty quality with lots of latency, there are better quality ways to make calls.
