Thread: [Anyone have any decent traffic?](#)

hickyfinnt - January 19, 2016, 10:52 pm

Hey guys,

I recently got banned from kikfinder and i've changed my ip, cleared my cache, changed my KIK and i'm still banned.

Does anyone know any decent sites? I'm having trouble getting any traffic recently.

Nekrolyse - January 19, 2016, 10:55 pm

honestly thats the best one, even posting on every other site combined doesnt even get me close to what kikfinder brings me alone, just mass post on all other kik sites.

I can post your name on kikfinder.

Kikfinders ban system is really annoying... Try live boot via USB into Tails OS each time you want to post? <https://tails.boum.org>

Another good traffic site I know of is <http://kikfriender.com>

Signed up to 2 sites. Received about [200](#) new chats.
answered about 70 and got 2 potential buyers but I'm still unsure :)

Why can't I add a visible image? why is the result like this^
