Thread: [Downing DDoS Guard/Hyper Filter/Cnserver/Big Companys/Layer 4/7 \[FREE OF \\$\]](#)

Drinkz - January 20, 2016, 4:38 am

wassup downing all of those targets in the title for free.

Do not pm me some other garbage host that can be downed with 1Gbps NTP either.

Downing, Hyperfilter/DDoS Guard/OVH Web Sites/Vox Sites/Prolexic/ And alot of other shit.

Doing this cause people spend \$1000000000000 on DDoS service when the owner of the service cannot even cause 11% packetloss
