i have used fiverr before and made over \$2.5k with it.. and trust me this gig wont make you money and if it did it will make you couple of 5s only..

i suggest you if you know how to rank .. to offer a ranking service for youtube by optimizing videos and adding some social signals and backlinks and some views to it.

I HIGHLY suggest you stop wasting your time with fiverr right now.

lol you're showing him a screenshot of \$1,700 earnings. I'm not sure that's going to convince him that fiverr is a waste of time..
