Thread: [\[BITCOIN\] SE'd A GAMER TO PAY IN BITCOINS \[BITCOIN\]](#)

Brahma™ - January 22, 2016, 9:34 pm

tl;dr - I got a gamer to sell his RS Gold for Bitcoins. He then sent me \$31 worth of bitcoins for a 10 minute Skype show. lol

This is my 2nd sale when I got paid in bitcoins. ?

PS: He still has about \$70 worth of bitcoins left in his wallet. Pretty sure I will empty his wallet. lol?

EDIT: Got him 3 times. ? <http://prntscr.com/9too3s>

Thanks. Yes, you are right. It's always a challenge to convince someone to pay using bitcoins. But this kid was way too horny to doubt anything and paid me after selling his RS gold.

One geek customer paid me in BTC two or three times, I had to play it dumb when he told me about it, but it was funny lol.

So did you give him a show with a vcw or whatever the names called? I've never seen one play but I'd think it would look fake for most people to think its live. I skype with asian girls to get naughty things for free so lucky me. ?

Yeah. I have over 50 HD shows of same girl. However, I used different Skype ID's of mine to lure him into different girls and guess what? I just got paid one more time. ??

\$30x3 = \$90 worth of bitcoins from him. ?

EDIT: Including proof. <http://prntscr.com/9too3s>
