How can I become popular and get girls to talk to me first?

I have nice clothes and expensive shoes but girls still don't talk to me first. I want them to just walk up to me, take my phone and put their numbers in and walk away. Anytime I talk to a girl in person I get all sweaty and awkward, so talking to them first is NOT an option.

Please help, I want to become popular and be liked by lots of women. I've tried buying OGs in the Marketplace and followed a lot of them on instagram + twitter but they aren't impressed by that. :(I'm not too experienced with the feminine species, I really like them but don't know what to do
Note: I am a sophomore in high school if that helps.

Bought OGs to impress girls. Did i really just read that.

You don't need shoes or anything glitzy to impress girls. Given the type of pit you are in, I'd say you should get a puppy. You need to start talking otherwise you won't grow.

Thats where your work begins. You start a conversation about how naughty she is..and how she doesn't let you sleep. In spite of all this, you love her like no other. How she is not very friendly with strangers but I don't know why she's very playful with you and watch girls melt to that.

Tip- Don't think about banging all the time. You will get over it proly when you will pop a cherry.

I don't understand what your skin colour has to do with this. If you are thoughtful of what people might think of you and your dog, why did you adopt her in the first place.

Kuso - January 23, 2016, 1:38 pm

You're problem is trying to impress people. Girls like people who are themselves, confident, definitely not people who seem like they're trying to impress but rather be themselves.

Try buying the Yeezy Season 1 and see if the homeless look gets the girls

On another note, this isn't the movies, and you will never have a girl walk up to you and give you their number.

1. You're asking why you can't get a girl to give you their number
2. Don't wait for shit to happen, take initiative
3. Most girls are dating in school, the chances of you randomly getting a number for no reason at all is very slim
4. Buy her a Céline bag if all fails

Maybe you should try thls, wear walmart clothes and a pair of skechers, ask a girl out, see what happens.

The next day, show up in your most expensive outfit (that looks reasonably good), ask the same girl out again, see what happens.

Now I don't have the balls to step into my school with skechers on so that's a pretty low option for me, but it might work for you.

Sorry to say, but girls aren't impressed at all by expensive clothes, nor OG accounts (lmao sorry but it was impossible not to laugh about that). They are impressed by the following

Confidence.

Good posture/body language.

Nice skin and consistent body muscles.

Grooming and shit (the way you dress, the way you style your hair etc)

CASH MOTHERFUCKER

And, did i say raw cash?

Its a combination of all these things that make girls talk to you and not backwards, I think the most important is the confidence, says a lot about you man.

And by the way, one thing I learned from high school is that the most popular boys/girls end up being the most stupid ones after in life. So don't think much about being too popular, you wait and you will see ha!

Don't talk about yourself unless the conversation pertains to you and even at that point try to find something else. Never talk about yourself as a lead in or anything, but do it with small things. Don't say, "Hey, I just got this metal from weightlifting and I fucked like 10 chicks last weekend." Do say, "I packed a grilled cheese today, and let me tell you, I'm stoked." They'll seem put off guard and laugh because they think it's cute." (Can't work on stuck up bitches they will only go for "populars or muscle dicks")

Don't mention how much you spend on clothes either. If someone asks just say "Rather than spend money on games or stuff I like having nice clothes and then I put some into savings too." Bitches love a man with money, but guess what? You don't have to have money because you can do random dates like going to the park, getting ice cream(dollar scoop night broh) and other shit.

Don't talk about how you like to talk to girls and impress them. That turns girls off so fucking hard. "try hard" don't be a fucking try hard. Talk to women who you actually like talking to. OR if you're trying to get laid, ask them if they like to travel. Every fucking girl in high school wants to travel because they're stuck in fucking high school.

TLDR:Spoiler ([Click to View](#))Be yourself. Don't be a try hard. Don't say you only want to impress women that turns them off. Don't be a beta ass bitch /Thread

Also, Sorry for cursing I'm, really high. :D

skelly76 - January 28, 2016, 9:34 pm

I can't tell if this is a troll or not. Everyone's giving paragraph answers so they believe it but the shit OP says is way off from what even a nerd in high school thinks.

If you're serious, stop being so gay. Talking about yourself doesn't get you anywhere. Talk to people you want to be friends with about anything, if you have similar interests they might want to be your friend.

Honestly in high school the easiest way is to go to parties. Just go have a drink with someone you want to be friends with and bam, friends. I just go introduce myself non-awkwardly and say hi to them in hallways and shit. You can try that too if you aren't socially spastic.

4. Picking up girls at bars and clubs is more about confidence, and eye contact then what you actually say.
5. If you are a virgin, find some random hoe, she doesn't even have to be pretty and fuck here, then go on to find some nice looking ones. (you don't want them to talk about your 20-30 sec debut.
6. If you struggle maintaining a boner with a condom on, try a bit of lubrication inside the condom, works like magic.
7. Be polite, honest and forward.
8. If you like a bitch and want to fuck here, don't go dreaming about it, let here know you are interested, if she aint... then find another!
9. If you crash and burn when you try to ask a girl out, don't sweat it, fuckit and try again on another. Shouldnt take more then a few tries before you find someone interested.

Ive had a friend I helped get over this, Id give you the same advice

Change your whole look, because if girls are not coming upto you yet maybe their is something wrong with your look. They always see you in this look , Change your approach your tone the way you presence in a room is, be more energetic with more of a vibe and a tone of your voice talks alot

My friend was kinda reserved, dressed like every other guy spoke low and wasn't churpy, I got him to change everything got him to dress in casual trousers a nice plain shirt and loafers with a new haircut, worked with him on his confidence and positive attitude when speaking to anyone be loud crack some jokes is a must and always make others laugh

At the end of the day girls wanna make friends with guys they can have laugh and joke with and a good time, you have to be appealing in everyway looks, your presence the way you talk joke and stuff

It took my friend a month before he fully understood and applied all those changes, I kept working on him for 3 weeks and then got him to change his look and haircut so when he was fully confident the last straw was a change of look totally so then when someone noticed him he was already confident and ready , so i would say work on all other things first then last straw to change look to more appealing to attract the girls when your confident fully ready

Now my friend has more girl as friends then boys lol true fact lol

Best of luck buddy

Be yourself, don't try to impress people, act on your own, don't try to play someone else, and be comfortable with yourself upon a conversation, that should work everything out. Goodluck!

Thanks for the help man I'll try it out.

Poutine - February 29, 2016, 4:10 pm

Heres my advice. Go talk to girls and be confident... talk about anything.

Girls talk alot and theyll talk about you to other girls I'm 100% sure so be friendly and a little flirty but not to much.

After that they will come to you.

dont try to hide the fact that you want to pretend your group actually does something so you make all your members put [specialists] in their thread titles

Termit7 - February 29, 2016, 7:43 pm

-You're problem is trying to impress people. Girls like people who are themselves, confident, definitely not people who seem like they're trying to impress but rather be themselves.

absolutely :)
