Thread: [2FA for Windows Phone](#)

**iLogic™** - January 24, 2016, 5:15 am

Hi there.

What app do you recommend to me as 2FA for HF?

**Auxil** - January 24, 2016, 5:17 am

I would love to see this too.

I have to use my GF's phone for 2FA.

**Pseudonymous** - January 24, 2016, 5:18 am

There aren't many apps available. It would be better if you used your PC and used authy.

**Durham** - January 24, 2016, 5:19 am

You can use the Authy addon on Google Chrome :)

Try this : <http://www.digitalcitizen.life/are-you-looking-google-authenticator-app-windows-phone>  
I can't guarantee anything but might help.

**D3xus** - January 24, 2016, 5:23 am

Microsoft has a Mobile Authenticator App which has the functionality of apps like Authy.

<http://blogs.technet.com/b/mspfe/archive/2013/10/02/how-to-use-the-microsoft-authenticator-app-for-windows-phone-to-enable-two-factor-authentication-on-facebook.aspx>

Set it up and you should be good to go.
