Thread: [Anyone use this before - Advanced SystemCare Ultimate](#)

Scorpi0n - January 24, 2016, 2:29 pm

I was wondering what people's opinion's/experiences have been with - Advanced SystemCare Ultimate and if you would recommend it over an anti-virus like ESET NOD32, i've read reviews and it sounds good but I've never heard of it before.

Thanks for anyone who weighs in.

No, it's not a replacement for any antivirus.

Personally the program has a lot of bloatware, and something like CCleaner works better for me.

Most likely Bloatware.

Just use CCleaner & ESET.

I used it for 6 months, But I found Bitdefender better than him
Well this is a simple share for my experience with it

good luck
