EDIT: Anything below this line is my review of this E-book.

Review of E-book

Content

The seller writes the following in his sales text: "The purpose of this eBook is to layout everything you need to know with affiliate marketing/CPA and then take what you learned throughout the book and further advance your skills by sitting through the seminars/mentoring service."

That is neither true or false. Because it not telling you everything someone needs to know about affiliate marketing/CPA, but it does tell you a lot. It answers many questions that beginners have and the seller has included pictures of how to do the different things he/she talks about. I am saying that it does not tell everything, because some things cannot be written - they have to be learned from experience (which is the metoring part, I assume).

Does it work?

I have bought a few E-books here and I've been a reviewer for more. However, I mostly see affiliate marketing / CPA E-books about blackhat niches. This E-book is completely whitehat, which is rare. The seller even suggests some niches (bonus), but these are saturated - you can still succeed, though.

Now, I have experience in this field and everything written in the version I got was not wrong - therefore the methods explained work. However, how good they work depend on how much you work!

What's bad?

The seller could make the design of the E-book look more appealing. Another thing is the fact that there are referral links included, which is bad in my opinion. But if I look at the price of this E-book, then I understand why.

To sum up

This E-book gives you the general knowledge of affiliate marketing / CPA. Do not expect to earn \$1000 every day just after reading this. However, you can expect to earn some money by using these methods - which in the end can make you \$1000 every day, if you become very good. No guarantees.

I am in no way affiliated with seller or anyone posting on this thread. I got a review/vouch copy and this is my review/vouch.

I'm going to keep the time as is and I'll also hold one Saturday morning/afternoon for everyone that couldn't get on the night before.

"HQ review", yeah no.

I got a review copy of this ebook. This book is the choice for the ones who are trying to start with Affiliate Marketing/CPA. This gives good and detailed information on how to get going with affiliate marketing. If want to start with affiliate marketing and don't know what to do, then I strongly suggest this ebook. But the only con is that if you are already into affiliate marketing and making some money then you may skip.

For 5\$, this is a pretty good buy, knowing how much you may make out of it

As someone recently asked, mentoring/seminars will still be held at 6:30pm Friday nights Eastern time AND Saturday mornings/afternoons for anyone who couldn't get on the previous night. If there are any questions, just ask!
