Thread: [Need IRC exploits](#)

KaitenSTD - January 27, 2016, 7:47 pm

I already have my IRC setup and have a second server for scanning. If you have anything hmu on skype: live:kaitenstd

Proxseas - January 27, 2016, 8:03 pm

Here we go again, 'IRC Exploits'. Pathetic

I'm assuming you mean an exploit for linux servers, routers ie (whatever you're targetting)
But your post says exploits for IRC, which I assume you mean the irc-daemon?

Well, there is this.

<http://thehackernews.com/2016/01/linux-kernel-hacker.html>

If you can capitalize on THAT vulnerability before it gets patched too widely you can have a whole lot of fun.

Isn't that just a privilege escalation exploit?

Quote:An attacker would only require local access to exploit the flaw on a Linux server.
