Thread: [GUIDE OF GUIDES!](#)

Yelax - January 28, 2016, 12:26 pm

The Thread Of Threads!

Everyday I log onto Hack Forums I notice that there are people looking for help on how to start E-whoring or help to find some good guides to help out. I have compiled a lot of guides/information that I feel will help out around here. There's also some very useful links which even those experienced E-whorers may find useful. If this helps in anyway please leave a reply to keep this bumped!

Send me a PM if you feel anything is missing, im sure I've missed a few.

If you are completely brand new here or have not posted here yet I suggest reading [this](#) thread before posting!
