Herbert - January 28, 2016, 4:11 pm

Hey,

So I really need to know this song, I need this for my valentines gift so it's very important for me to find this fast.

[Video: <https://www.youtube.com/watch?v=iWdDLkLMYOW>]

It starts from 3:17 -> 5:03

any other alternative sound would be great as well, something with bells would be cool :D

Thank you so much!

I'm gonna try to discover this for u ;) Will let u know if I can find it or not!

Edit: Couldn't really figure it out with various sounds recognition programs :(It's extra hard without lyrics in the song as well, I am not really familair with this kind of music so I hope someone can find it or a alternative.

it sounds like something that would be free on youtube music like when you edit a video and you

can put youtubes crappy monetization music because if he used an outside source for music he probably would have put a reference to that person or something

Maybe, but I can't look into the library I think, since I'm partnered up with TGN we have a different non-copyright music source, but then again I don't know for sure.
