Thread: [YouTube Car Videos Thread- Post Your Favourite Videos](#)

It's crazy we still don't have a car section on HF, yet there's a section for dubstep and edm. Hmm.. Never mind, I'm not the admin..

In December last year I fucked my car up really bad, I'd post pictures but honestly I don't want to because it breaks my fucking heart. This was it before what happened..

Currently saving money for a new car, I'd like another VRS. The power was unreal and so much potential as the engines can handle anything you throw at them. I'm becoming impatient as fuck waiting for a new car and spend most my spare time looking at cars for sale or browsing YouTube videos.

So I wanna see some videos you have seen on YouTube, any kind of car videos. Lets keep this thread active with anything you have! ?

I'll start...
