Thread: [~SALE~ 8\\$ Not Fancy-Just Effective. The Psychology of Sales and Spreading} VOUCHED](#)

Trojan Piglet - January 29, 2016, 8:25 pm

Hello I have written a book going over tried and true theories and methods for social engineering, e-whoring, and spreading software, but can be applied to every day social situations.

I will pay for a fancy design and sticky in the future when the book is complete and i have found an appropriate designer, for now I'd like to start with simply selling the Beta version of my book, 6 pages currently, no photos, only information. After a few days to a week, I will update this post and the price will likely rise to 25\$ and be moved to premium sellers thread.

If you have any questions, feel free to PM me or comment.

TOS: Do not share or resell this Ebook.

If you'd like a refund for any reason simply Pm me and I will respond withing 24 hours.

Grammer : 10/10

I did not find any grammar mistakes while I was reading this.

Ease of use : 8/10

He provided some methods for ewhoring/spreading, I'd rate 8/10 due to the lack of pictures.

Originality : 10/10

I haven't seen any of these methods, but with the methods comes a way to basically social engineer your buyer

Overall : 9/10

Overall I just think this is a great ebook for people wanting to "seduce" their costumers & need some extra info ?
