Nobility - January 30, 2016, 11:03 am

Starting bid: \$850

Increments: \$50 or higher

End date: I don't know

Be approved be Hecicidal

Perks to being Leader

- Your opinion matters in group changes/discussions
- Any possible members you have in mind for the group, will most likely be accepted depending on their level of toxicity on HF.
- Bigger e-penis in front of other members in Black Lodge and maybe HF as a whole.

Message to the next Leader: Best of luck here, my years with Hex have been amazing. Being my first friend on this forum and being in the group since my arrival in 2011, this place has been my home. Try to abide by Hex's rules and don't forget you're not the top dawg. The other leaders still beat you in seniority, many whom have been leaders longer than me.

It shouldn't be that hard, right? :p

I was a leader of the group back when it was first ever Void and then when it changed to Nexus. This is truly a great group to help lead and a lifetime experience. Good luck with the sale.

Damn, good luck with your future endeavours Nobility.

Actually, it's worth less considering you can't add or remove anyone. Just sayin.

Ahem, I do not believe there can be more than one Hecicidal.

Tostig - January 30, 2016, 10:38 pm

Approved by Hex, if only I was willing to throw \$850 at something like this...

wellager - January 31, 2016, 1:46 am

Will I also get to use an edgy user title?

If you consider buying this, be sure to check if it hasn't already been sold since OP and his friend enjoy scamming before leaving the forum.

I'm not leaving the forum - my account will still remain here as a semi-active user.

Also thanks for the bump but I'd prefer it if you didn't post with all your negativity. Not sure why you've got beef with me, I've never bothered crossing paths with you.

Nobility - February 3, 2016, 11:39 pm

Still up for sale if anyone's interested.

Nobility - February 20, 2016, 9:22 am

This is still up for grabs if anyone wishes to take it - PM me your offers.

Nobility - March 5, 2016, 11:03 am

Up for grabs - now taking Bank Transfer.

I'll buy this right now for \$10 BTC since you seem pretty desperate.

Sure I have no problem waiting a few months for you to get an additional \$840.

He has a strange history of starting beef with people for no reason.

I never crossed paths with him either, yet he has a lot of hatred towards me. Started beefing with me like 1.5 months ago.

Ignore list and carry on.
