Quote: One day, a sorceress princess was stuffed into a barrel and banished.
One day, a single girl was suddenly murdered, and the culprit still runs free.
And one day, a battle spanning time and space over magic and revenge began!
Sanity and madness, sense and intelligence, self-confidence and convictions.
The tragic tale of this irrational world starts now.

The Kusaribe family is a family of sorcerers under the protection of the "Tree of Origins". Their princess, Hakaze Kusaribe, was the greatest sorceress of their family. But Samon Kusaribe, a member of their family seeking to resurrect the "Tree of World's End", a tree that opposes the "Tree of Origins" and controls the power of destruction, stuffs her into a barrel, and banishes her to a deserted island. From the deserted island, she sends a message out to sea, which is picked up by Mahiro Fuwa, a young boy who's sworn vengeance upon the criminal who killed his little sister, Aika. Mahiro agrees to help Hakaze under the condition that she find Aika's killer with her magic. But once Mahiro's best friend and Aika's lover, Yoshino Takigawa is rescued from danger, he too gets dragged into this tale of revenge. Source: http://myanimelist.net/anime/14075/Zetsuen_no_Tempest

Randomly stumbled across that Anime on MAL while looking at recommendations under Guilty Crown. Watched the opening and holy shit it looks good. Dropping Tenjou Tenge right now to start it as soon as I get back home tonight. It feels like I've yet found another "hidden gem" in my book.

That opening is trash. Second OP is better.

Nonetheless, one of the best magic anime. Such a good story.

magic is gr8 too.

Ang?I - January 30, 2016, 3:36 pm

My only problem was the lack of romance. Other than that, loved this show and had it in my top 5 for a brief period.

Lone - January 30, 2016, 3:45 pm

I liked it a lot too, I watched it such a long time ago I can't remember the whole plot might watch again for fun!

Chad ThunderCock - January 30, 2016, 4:50 pm

The show was awesome, one of my favorite shows. 9/10

skelly76 - January 30, 2016, 6:09 pm

Fuck everyone says it's good I'm excited. Top of my list niggas.

Duyere - January 30, 2016, 8:09 pm

I can't remember why but I dropped it halfway because something made me think it was rubbish. Might pick it up again since it has high ratings. Been a few years since I last watched it and I watched a lot of shit anime in that time. So I might be able to stomach it now.

ankitkhosya - January 30, 2016, 8:44 pm

One of the top psychological anime in my list.
though its not so famous.

Phobix - January 30, 2016, 8:45 pm

Literally one of my most favorite animes.

Ayahuasca - January 30, 2016, 8:46 pm

I always brag about this anime!

It's my all time favorite, such a great watch!

Aura - January 31, 2016, 1:37 pm

Well it seems like I won't be dropping that one any time soon since it's already packed with action and I like it.

That girlfriend story though... I don't why but the feels are hitting me strong with that.

Yuikoro - January 31, 2016, 3:09 pm

I remember putting this on my plan to watch and taking it off my plan to watch list a few times. It's an anime that, for some reason, I have a hard time finding the motivation to start. No idea why.
I will have to watch this eventually since I put it off for a while

Kiyoshi - January 31, 2016, 10:24 pm

I've actually not seen this yet.

I guess it's time for me to waste a day on this. ^-^

Just watch it now. The girlfriend story is enough to make you want to watch the whole thing. That's what I'm the most curious about.

Aura - February 2, 2016, 4:44 pm

Well I'm done watching it, and it was totally worth stopping watching two other shows to focus on it.

Going in my recommendation list.

I actually started this series yesterday.
Will definitely watch more of it before I head to bed. :)

Can you link your MAL for me?

I've seen your posts and we have very similar taste in anime.

The magic is better than the whole story. Otherwise, you're watching it for the wrong reason.

Here Infamy

Also, the magic aspect of the Anime was nice, but the girlfriend story and the personalities of the characters (mostly the MC, girlfriend and brother) was more interesting than anything.

Thanks fam, sent a FR.

Going to start using MAL now that I found there's an app for it, so I can update after I finish watching on my phone.

Too bad that I'm too lazy to go through and finish some.

Also: if you haven't already, watch [Gosick](#) (I don't see it on your MAL)
