Hey guys kmz here

So i saw this amazing website that actually contains more amazing sites.

<http://www.rethinkie.com/>

From playing assasins creed pirates to playing atari with good graphics

This website have very cool things in it.

There is 2 very cool websites that attracted my attention in rethinkie.

The first one [if you already didn't guessed it] its the atari arcade

From there you can play good games [Pong,Super breakout,etc..]

Both Singleplayer and Multiplayer.

And talking about the graphics? its really good.

The second one is hover

Its a 3D Good graphics,capture the flag game.

It have some items to make the game even more fun. [Items gives you the ability to cloack,place a wall and more.]

You play as a hovercraft,you choose a one from different ones.

A really cool game which features 2 modes [Singleplayer and Multiplayer]

You can play the game with your friends. [by making your special link via multiplayer mode]

All the things mentioned can be found on the website rethinkie at <http://www.rethinkie.com/>
