"How to Denial of Service" Found that a bit funny.
People here are selling booters, look around.

You will need to find their IP.

Once you have it, you can purchase a booter here:

Hope this helped / answered your question.

L O L buy a booter. S K I D

PING REQUEST TIMING OUT for all you ppl said you smell Sk1d haha

TAKE OUT THE SPACES , see SCREEN shot for yourself !!! Sk1dz , Ban me again Gogo GOT over 100 backup accounts all fake to look legit.

Code h t t p : / / i m g u r . c o m / z s P A R 4 1

To all you Skidz , you know who you are , I did not get to copy the last POST message , so had to redo. Keep it simple you already know whats poppin.

Hey HackForums , Who defaced the webite not too long ago ? Was not me and niether am i claiming hahaha

Now Keep in mind , this list is a list of IP's for whoever to test boot on , IF for any reason you THINK

i am making this post because i want you guys to BOOT these Ips offline for me. You are Highly Mistaking , If you want me to PROVE to you i can HIT just as hard , GIVE ME your IP and i WILL BOOT YOU OFFLINE with over 100mbps in an instant. I am releasing these IPS BECAUSE , They deserve MULTIPLE different Attacks.

I am currently Declaring a boot Campaign on every one of these IPS every day for small amounts of time , WHY not up THE STRIKES !!!!

To DDos someone what you would need to do is buy a booger off of are service's in the marketplace section. Then you would have to pull an ip which can be from many different ways. From Skype ip Logger cain and abel or Land.
