Thread: [Hitleap Traffic Giveaway](#)

I have over 1000 minutes on Hitleap and I would like to give it all away.

I have been using Hitleap for a while now, I don't really have a good use for it anymore and I think it would go better in someone else's hands instead of mine. If you have any website that you need hits on, even if it's a link to make you money or your own personal site, let me know and I will add it to my Hitleap.

Recently a few days ago Hitleap blacklisted skillerzforum from their website. ?
