Thread: [Updating jailbroken iphone to 9.0 Error 3194. HELP](#)

Sharjah - January 31, 2016, 3:47 pm

I keep getting this.

Stuff I've done:

Redownloaded the firmware

Turned off firewall

Updated iTunes

Restarted iPhone and PC

Any other suggestions??

I followed this tutorial

<http://www.iphonehacks.com/2015/09/how-to-update-jailbroken-iphone-ipad-to-ios-9.html>

Yes. The model number is correct too

Yes I'm on 8.4. Do I download that?

I don't want all my shit deleted lol

If you want to reset your iPhone without iTunes download Cydia Impactor, else just try another computer, that's a fix 79% of the time.

Do I have to reset it?

u will lose every shit its like a restore but it stays on same firmware

Sharjah - January 31, 2016, 4:38 pm

(Jan 31, 2016 05:37 PM)IamNotSure Wrote: [\[CITE\]](#) u will lose every shit its like a restore but it stays on same firmwareSo download Cydia impactor, get everything deleted, then go on my pc and update with the 9.0 firmware, and I'll have everything back again?

iamnotsure - January 31, 2016, 4:41 pm

do you have a backup or how will you get everything back ?.d

I have an icloud backup. But is restoring the only way to upgrade to 9.0? I feel like this would take quite some time, and I'm not trying to fuck up lol.

I feel like this would take quite some time, and I'm not trying to fuck up lol. well i am not an expert, but i guess thats the only way and it will take 15-20 mins till its done man. quick process

Sharjah - January 31, 2016, 5:06 pm

Ok thanks. If that's truly the only way and people can confirm I guess I'll give it a shot. Thanks again

iamnotsure - January 31, 2016, 5:09 pm

try putting in dfu mode , you wont have to use cydia impactor then .d

When you restore your iPhone, while its still connected to your computer try to see if iTunes will recommend the update.

Or on your iPhone go to Settings -> General -> Software Update.

If that doesn't work pm me, and I'll try my hardest to help you fix this issue.

I havent restored my phone yet. Is that the only way to update? Will I lose all my apps and shit?

illuminati? - January 31, 2016, 8:26 pm

If you restore your phone you'll lose your applications.

If you just update, you'll lose your jailbreak, and the apps from the jailbreak, but you'll keep the other apps (from the App Store).

You can update your iPhone from iTunes when your phone is plugged into your PC.
