Now maybe you've seen my ted ex talk where I talk about how I eat a box of mac and cheese a day. You know, I eat a box of mac and cheese once a day not to show off, again it's about the pasta. Who am I? I am Shiggy Diggy. I am a 21 year old from Sydney, Outbackland (or Australia)

Why do I want to join? You guys seem chill, I fill almost all requirements (I'd need an invite for the discord server) and I kinda want to get to know some people.

Are you willing to bully Aurora if accepted? One moment, let me have a look at that user... Nah, Aurora looks like a chill guy, would love to get to know him/her/it/however Aurora identifies.

Fav Kanye West song? tbh i don't like Kanye West. He likes justin bieber, and that is unforgivable. As for my taste in music, I prefer metal, and I particularly like anything involving guitar. I dislike dubstep and modern pop music (especially ones about sex and crap, it reminds me #virgin4lyfe)

Show me something new and funny: Pfft, compared to Donald Trump's campaign there's literally no material left, he IS all the material there is.

Have you ripped someone a new one? LINK IT!!! Sorry, no dice. I don't consider anything I do here "ripping someone a new one." I've done it a few times on a github repo, but here I just usually ignore it, because it draws unnecessary drama towards me, draws negative reps, draws potential mad omni bans, I just keep my head down.

Did I application correctly? Or is my aspergers syndrome too autistic
