Thread: [looking for rust team\(HACKERS\)](#)

Basically, team up with 2 guys with hacks, and someone without, so that our team is made of 4 members.

incase one of the 2 hackers...or both.. get banned, us 2 will carry on playing, until the other settles the ban, plus by doing so we are less suspicious...

that was our gameplay strategy this dec.

unfortunately i cant get access to the hack due to the fact that i was banned lol

You know hacking is illegal right? So if you team up with them you'll be an accessory and can go to jail too.

Or so I heard...
