TRAUMA - February 2, 2016, 7:26 am

I really think I deserve this.. Why?

<https://hackforums.net/showthread.php?tid=5111034>

I had 500+ rep and was in Royalty etc.. And a trusted red lions member held a giveaway.. I ended up winning it.. A month or so past and he ends up going out exit scamming..
He told me he paid in BTC, which I found out the hard way..

I woke up the next morning to a closed and rep killed account for emerald reversal. After having to make a new account, appeal it, etc etc.. I ended up losing all my rep and being in royalty. Which I had to reapply for.. Now, I am slowly but surely growing from the fall.

That's why I think I should win... All true BTW..

BaiN - February 2, 2016, 8:51 am

Emerald is a gemstone and a variety of the mineral beryl. Coloured green by trace amounts of chromium and sometimes vanadium.[2] Beryl has a hardness of 7.5–8 on the Mohs scale.[2] Most emeralds are highly included, so their toughness (resistance to breakage) is classified as generally poor. It is a cyclosilicate. The word "Emerald" is derived (via Old French: Esmeraude and Middle English: Emeraude), from Vulgar Latin: Esmaralda/Esmaraldus, a variant of Latin Smaragdus, which originated in Greek: *σμεραγδος* (smaragdos; "green gem").
