**Regulus** - February 16, 2016, 3:01 pm

Big shoutout to [Wuss](#) for making me this beautiful logo!

And thanks to [Bux](#) for making me a new Avatar after having the old skeleton spamming on the keyboard for 3 Years. :)

## About Me

Hello there Hackforums. I'm Regulus and I am 21 Years Old from Sweden. I've been on this amazing forum / community 3 Years in total now. I've met a lots of new friends on here and I must say that's the #1 point if you ask me.

I've been active on this forum pretty much everyday since 2013 and I can't say I've ever got bored to be here. There's always something fun to read or always fun to talk to friends etc.

I must say time have been going very fast to be honest, I remember when I first signed up on Hackforums and looked up to all the L33T and UB3R members with custom Userbars haha.

I remember PMing a lots of people because I saw they had the "Rich Bitch" award and I was curious how they made money etc. But that's not the reason I first signed up.

I signed up on this forum because back in 2013, three of my big Facebook pages got hacked by a guy. I know who it was and I still know who it his.

He still has the Pages today and make bank out of it. That's what I used to do as well before they got hacked. It was a terrible feeling to see it getting hacked and no longer be able to make money.

But times went and today I don't really care about it so much to be honest.

After a few weeks I figured out this was an amazing community and I wanted to contribute more and more towards it as I actually felt liked and home for some reason.

All the members back then made me feel so welcome and loved in some way, they were so nice and polite to me and helped me with a lot.

Since that, time has been flying by so fast and I've met a lots of new friends since that.

## Groups

Here's some information and feedback about the groups I've been in under my time on Hackforums. I will only keep it short!

So many memories in this group.

This was probably the first Group I was accepted into on Hackforums and it made me happy as a EDM Producer to get accepted into it.

I met a lots of friends in this group. Not sure if everyone is still on Hackforums though. Had a great run!

Oh Instinct, where do I even begin? This was probably the funniest and most active group I was in.

I miss those times and damn I made a lots of friends in here. Really wish Instinct could come back one day because I had so much fun in there and there was so much activity going on in there. Amazing group. This was my second home for sure!

This was also one of the nicest groups I've been it. It had a LOTS of members in it so it was very active.

But in the end it started to be more and more inactive sadly.

Gotta give [eCoLoGy](#) a huge shoutout for contributing so much and helping out so much in it.

Without him there would probably be no activity at all.

I don't know what to say about this to be honest.

This was like Instinct v2. It got sold recently and the new group owner is now [!Glitch](#).

Anyways, I made literally tons of new friends in this group and will never forget the time I had in it.

One hell of an active group with amazing members in it!

I was accepted into this group and was a member in there for a while.

Active group with a lots of activity.

Great members in it and also met some friends in here as well. :)

Oh god, what can I say.

When I first saw the recruitment thread of this in the Group sections for the first time I was like "I'll never get accepted into it so I won't even bother apply to it"

But I did apply to it and I'll never ever forget that. I just remember the day I got a PM from Vampire telling me I was accepted.

Was literally so freaking happy at that moment. This is one amazing group with amazing and kind, and of course helpful members.

I feel so home in this group and hope I'll stay in here forever. I love it here and all the members! <3

This group has meant a lot to me as well. I've met both old and new friends in this group and I love it here.

It's active and it's fun to be a part in. A very chill group with a lots of nice and kind members in it.

I hope this group never will be sold :)

I was in this group for a short period of time a while ago and well.

I remember the group as very active and probably still is.

I wasn't there so long so I can't say more about it.

It was a while ago I was in this group now. But when I was accepted into this group before it meant so much!

It's one amazing group for sure. and a lots of HQ members in there.

Members in this group have contributed a lot to the forum and learnt me a lots as well.

Great group with HQ individuals. :)

What can I say about this group. I was here for a very very short period of time.

I got invited to it like a week or two before it got sold.

But under the time I was there, I liked it. Kind members and active Sub-Forum.

This group is indeed amazing. It's a newly started group on Hackforums that aims for Gaming and stuffs like that.

I'm enjoying being here so bad because a lot of old and new friends are in here.

It's very active, very very active and I just love it. Having a great time in this group and wish I'll be able to stay here for a long time!

This is also a very newly started group and so far it's amazing.

I know a lots of member in there and it feels fantastic to be a part of it.

It's exactly my type of group as it's mostly about media (Music / GFX) etc.

And it fits me well as I'm a EDM Producer :)

The Staff

Just wanna say before I write about you. That everyone is doing a great work!

Omniscient

The god of all gods. There's so much to say about you but I don't know where to begin.

You're running the #1 Hacking Forum of all time and I can't thank you enough how much I appreciate of being a part of this Forum / Community.

I have learnt so much on This forum and I don't know where and what I would do right now if Hackforums didn't exist.

You're doing one hell of a good job on running this Forum buddy. Amazing Admin and owner!

Can't thank you enough.

!!\* Alone Vampire !!

Amazing staff and also a great member on this Forum!

I see you here and there on Hackforums.

You're a great Staff and also a godly moderator in Red Lions

Thanks for letting me be a part of such a nice group Vampire. You have no clue how much I appreciate it.

You're amazing!

Roger Waters

Oh look, here's another High Quality and amazing Staff.

You're contributing so much and helping out others so much.

I have PM'd you a several of times in the past and you've never ignored my PM's, you've always helped me out if I had any questions and that's what I love with you.

Great staff!

Sam Winchester

I see you a lot around the Forum actually and you've always been a HQ staff in my eyes to be honest.

You're doing a great job as staff buddy.

Skorp

Just like all the others. You're doing an amazing job here on Hackforums.

I see your posts a lot here and there and I can tell you're very HQ and a great staff.  
Doing a great job man. Keep it up that way!

King of Hearts

I see you from time to time in different threads and sections etc.  
Keep it up buddy like all of the others!

Walt Disney™

You're a pretty new staff on this Forum. I see you around a lot and I'm glad you got Staff!  
Congratulations on the achievement.

I remember when you were a regular UB3R like us others. Pretty sure we've been talking to each other in the past as well :)

Keep up the good work buddy!

## Top 5 Sections

- The Lounge -

This is my #1 Favorite section on Hackforums to be honest. Reason is because there's always something interesting and funny to read about in there.

It's very active and has new threads almost all the time.

I'm spending many hours a day lurking around here and read a lots of interesting threads.

Of course there's also a lots of trolls in there as well.

- Melody, Harmony, Rhythm, and MP3 -

This is probably my second best section on Hackforums. A few members here on HF knows i'm a EDM producer and produce a lots of music.

So I love spending time in this section to listen to others music and other things as well.

I've got a lots of good music suggestions in this section and love to post here to give feedback about songs etc.

It's a nice section :)

- Bragging Rights -

This is my 3rd favorite group on here. One of the reasons I like this section is because I love to see people's success stories in here.

It also makes me jealous of course as I don't make anything Online haha!

But it just makes me so happy to see people succeed here in life and making a decent amount of money.

The section is not only about money as well of course. There's a lots of other things members brag about. Doesn't matter what it is, it just makes me happy to see, and that's the whole point. :)

- Movies, TV, and Videos -

This is my 4th favorite section on Hackforums. Why? Because i'm a HUGE movie fan.

I watch movies pretty much everyday to be honest and I have a huge passion for it. I like this section a lot because there's always a lots of nice suggestions and recommendations here of good movies.

If you need a new movie to watch and need recommendations, this section is the way to go.

Great section and i'm so glad it's there!

- Beginner Hacking -

Although I don't have so much knowledge about hacking and stuffs like that I browse this section daily to see if someone wants or needs help.

If I know the answer I always post it to help them out.

I remember this being my first section I went to when I was new to this forum. I had a lots of questions and needed some answers.

Always got the help I wanted in this section and trying to do the same for new members today, as I know how hard it is to come here as an normal member and don't know anything about everything related to hacking.

I love this section!

#### Future Of Hackforums

Not sure what to say here. I look forward to see how Hackforums is gonna be in the future.

Future updates and how the Forum will look in a few years.

And I also look forward to spend another 3 Years on this amazing Forum and make even more friends. Nothing more to say here really.

Hackforums is getting bigger and bigger everyday and Omniscient is working hard on updates all the time to keep our accounts more safe and for us to have an amazing experience and time here.

#### Shoutouts

This is gonna be hard as I have tons of friends on this forum that I like so much. I have a big family here on HF and most of them know who they are.

So if they're not on the list below don't be mad because I probably only missed you then haha!

This was my official feedback thread of spending 3 years on this amazing Forum.

Thank you for reading and sorry if it was kind of short.

But I don't feel like it has to be longer hehe.

I look forward to another 3 years on this forum minimum and i'm looking forward to make a lots of new friends on here as well!

Take care everyone and have an amazing day!

Shows up, doesn't he?

Probational or not he is considered a member of Staff.

Just got done reading through all of it.

Really enjoyed reading about your experiences with the sections especially with the Bragging Rights due to me thinking you can easily turn that feeling you get into motivation to attempt to do something of your own.

Its always hard to find something you enjoy doing to make money but surely you'll be able to find something Regulus ?

Thanks a lot buddy! I really appreciate the nice and kind words and I'm glad you liked it hehe.

Yeah that's true. But I always having a hard time to think outside the box so I never really come so far.

I will keep trying and hopefully one day I'll step on a gold mine. You never know. :)

Thanks a lot once again :)

You're dissappointing me.

Yeah as I wrote before there's a lots of member to remember.

And you're not the first one I forgot so don't take it personal haha.

"I'm not on list omg!!??"

know1curr.

Nice feedback.

**ra1d** - February 18, 2016, 10:00 am

All I see is a bunch of repetitive BS, that are in every single one of those "feedback" threads.  
Mixed with some ass kissing.
