Thread: [Spotify Premium Cracking Config](#)

Baba Yaga - February 3, 2016, 5:51 pm

So I recently made a Spotify premium cracking config. I've seen some people on the forum selling config services for way too much that it's worth. In the spirit of giving and love for the community, I'm deciding on releasing a working one (as of February 3, 2016). Just shoot me a PM and I will be glad to send it to you ? Cheers and thank you all for being great members of this community

Features:

- *Proxy Config

- *Captures Premium Accounts Only

- *Auto-Captures the Following:

 - Username

 - Auto-Renew

 - Expiry Date

Note: In the rules #9 states that we cannot give away non-free accounts. Not sure if giving a config would fall under this rule but I will post this thread unless someone says that it is in violation. I will close the thread if any rules are being trampled on.

Took me a while to get the capture settings right since most configs do not have auto-capture feature (or at least they make you pay extra for the feature).
