Financial crisis has struck my family home and left us in turmoil. As the man of the house, it is my job to try and bring in a little money. So, I am offering my services. Here is a list of my skills. All prices are negotiable, but I can only accept BTC.

- SEO-friendly article writing
- Manual article spinning/rewrites
- Forum posting
- Proofreading (grammar check)
- Text signatures ([examples](#))
- MyBB administration/setup
- HTML/CSS debugging
- Making accounts
- Completing surveys
- Making videos (Camtasia)
- Whiteboard presentations

The list isn't exhaustive and I have talents even I don't know about. If you have something that needs done that isn't covered here feel free to drop me a PM or post.

Are you willing to write my name on your spouses boob? Prices please.

I need this because I will never be able to see a real boob irl.
