User has scammed multiple people this week, aswell as a lot of previous scam reports in 2015 - He creates a topic selling CSGO skins cheap and insta-locks it so you have to PM him. Stops replying once you "agree" on a MM.

On topic: Buying a \$180 knife for BTC. Hoping for 60-65%

He's posted the same locked thread for months, surprised he's not banned yet

If I was you guys I'd be reporting this to one of the mods or Omni, maybe it's just been overlooked.
