Thread: [Booster Theme \[9 Controls\] \[02/22\] \[Animated\]](#)

Naywyn - February 6, 2016, 10:56 am

Hello HackForums, it's been a long time since I didn't release a theme. I'm most known as AeroRev9 but I decided to change my username, I wanted to do a dark theme this time, the design is a reproduction of Driver Booster interface.

You can disable pretty much all controls and they all inherits from the correct control.

Animations

Spoiler [\(Click to View\)](#)

02/22Fix on combobox control.

Radiobuttons are now animated.

Checkboxes are now animated.

NumericUpdowns are now animated.

ToolTip now supports ToolTipIcon property.

02/08Better accuracy on NumericUpDown control.

You can now disable comboboxes.

Text position has been fixed on ToolTip control.

New TextBox control, you can disable it as well.

Hover modifications on ComboBox and NumericUpDown control

ControlsBoosterHeader

BoosterButton

BoosterToolTip

BoosterTextBox

BoosterCheckBox

BoosterComboBox

BoosterTabControl

BoosterRadioButton

BoosterNumericUpDown

Please, give credits if you use this theme, thanks, happy designing!

I'll release new updates if I have some motivation in the future.

TazzyOpz - February 6, 2016, 11:07 am

I like it, very nice job. Very clean :)

AnonCensored - February 6, 2016, 11:32 am

Nice theme release as always

SaketSaket - February 6, 2016, 12:40 pm

Nice & clean looking theme... ;)

Kedox - February 6, 2016, 2:08 pm

Very nice theme! You should consider expanding this with gridviews and listviews because this theme has potential to be spectacularly boner material/

Rhez - February 6, 2016, 5:43 pm

Seeing your works makes me feel like I don't want to try GDI anymore.

Can't do this awesome thing.

Good Job mate ?

?????? - February 6, 2016, 9:28 pm

After I a long time , I am seeing a very very good theme.

EagleEye - February 7, 2016, 1:11 am

well done BRAVOOO , good job , i can't say anything anymore man

very good and clean GUI

KEEP IT UP :)

Earn - February 7, 2016, 4:40 am

Looks nice man. Good job!

MinaxCrypter - February 7, 2016, 6:27 pm

Very nice job man. Very clean :)

Dredd - February 8, 2016, 3:49 am

Good job looks like a grey version of chrome.

eCoLoGy - February 8, 2016, 11:20 am

Really great theme mate!

But I think you should have included a TextBox also.

Great work anyway. ?

Naywyn - February 8, 2016, 1:13 pm

Just released an update guys, check it out! ?

TextBox control is added.

Thanks for the positive feedbacks, also!

MonEy - February 9, 2016, 5:48 am

Another great release, keep it the good work. Enjoy being Ub3r. ?

Lexus™ - February 15, 2016, 9:47 am

nice and HQ one ;) :D i love it

ShittyAdvice - February 15, 2016, 12:48 pm

C# Code - [Pastebin](#)

This is for anyone who is either too lazy, too dumb or too busy to convert this themselves.

ToxicBox - February 15, 2016, 1:15 pm

Nice job man, Nice & clean looking theme... ;)

debug - February 15, 2016, 3:42 pm

Usually dark themes tend to be pretty shit, but this is quite nice; not overdone. clap

OmegaCode - February 15, 2016, 8:18 pm

Theme looks really nice. Too bad there isn't a C# version of this? :D

What @Naywyn said.

Also remember that you can compile a VB source file as dll and then just import and use it in C#

BoliBerrys - February 19, 2016, 1:08 pm

Great Stuff :D

Really love this theme men

Naywyn - February 22, 2016, 10:40 am

Hey guys, I just released an update: radiobuttons, checkboxes and numericupdowns are now animated! I'll post a gif soon.

02/22Fix on combobox control.

Radiobuttons are now animated.

Checkboxes are now animated.

NumericUpdowns are now animated.

Tooltip now supports ToolTipIcon property.

Wow! This is a great theme, I'll most likely hire you soon for some private jobs.?

laura1995 - February 22, 2016, 1:29 pm

nice release bro clean asf

zuix33 - February 22, 2016, 1:44 pm

very nice theme i like it?

nuk - February 22, 2016, 6:05 pm

I likes it a lot ;) Great work on this one homie ;) Look forward to seeing some more from you soon? ;)

Isley - February 22, 2016, 10:18 pm

It's a quite nice theme, only thing I'd tweak is the horizontal text alignment on the textbox; should be easy enough of a fix for anyone that uses it though.

My Computer - February 22, 2016, 11:14 pm

The animations are great, only downside is that when you spam click the checkbox it will start to glitch out.

Yeah I noticed that too, I'll try to fix it soon.

Thanks for all the positive feedbacks, really appreciated. ?
I replaced the old gif, should be better now.

looks great thanks :) I must convert it to C# :D

Illusionisten - February 23, 2016, 11:06 am

Why did you have to push updates when I had chosen something over this because it lacked a few things :'(

Trying to tell myself that I shouldn't delay the back-end workings because of this but it's definitely tempting. ;)

.GonZ0. - February 24, 2016, 3:04 pm

Thanks for your share man! Very clean theme!

7 - February 24, 2016, 3:05 pm

Looks really really good man. Love your work. Good job

Cecilia - February 24, 2016, 4:33 pm

I'd be interested to see listview's in your themes.

samerlol - February 25, 2016, 10:59 am

Thanks you.. Works like a cream

Asked him multiple times about ListView Controls but nah :c

In my opinion he makes the best (for commercial use) Themes on HackForums

Just use the default one fit's pretty well imo,

PHP Code

```
<?php
Dim BoosterListbox As New ListBox
BoosterListbox.Name = "BoosterListbox"
BoosterListbox.BorderStyle = BorderStyle.FixedSingle
BoosterListbox.BackColor = Color.FromArgb(66, 66, 66)
BoosterListbox.Dock = DockStyle.Fill
BoosterListbox.ForeColor = Color.White
Me.Controls.Add(BoosterListbox)
```

AimBRoT - February 27, 2016, 7:35 am

@AnonCensored We are talking about a ListVIEW Control and not a ListBOX :)

Ah whoops always get those two mixed up

But I'm sure it won't be much different

PHP Code

```
<?php
Dim BoosterListView As New ListView
BoosterListView .Name = "BoosterListView"
BoosterListView .BorderStyle = BorderStyle.FixedSingle
BoosterListView .BackColor = Color.FromArgb(66, 66, 66)
BoosterListView .Dock = DockStyle.Fill
BoosterListView .ForeColor = Color.White
Me.Controls.Add(BoosterListView )
```

eCoLoGy - February 27, 2016, 9:02 am

If I may suggest you something else to improve your theme I'd say in your textboxes to add an option for scrollbars. ?

sicautoz - February 27, 2016, 11:21 pm

Thank you for sharing. This is a very clean looking theme. Good job :)
