You just wait

And are you sure your friend even bought it

Make sure he sends you info like trans id, etc

If after 48 hours, then im not exactly sure

let your friend handle it since he bought it.

I paid for membership, how long till my account is upgraded?

Typically within 24 hours. Do not inquire via PM or create a support thread until at least 24 hours have passed. Include your transaction ID. If you paid with your Paypal and it was an echeck, it can take 5-7 days to clear.

Post ask him to post in RANF but ask him to wait somemore time.
