How it Works?

1. Message me with account details and which package you are purchasing, and when if you need the account done in a shorter amount of time things can be negotiated.
2. I will test your game account and password and then start your order.
3. Some times your account will be temporarily locked since the login location change. So to help fix that you will need to change the password to something you don't use but we can use to get back in. Can be changed after!
4. Please DO NOT login your game account before we complete your order, It will lock me out.
5. When order completed, an email or message will be sent you you. Whichever is the best way to keep in contact.
6. Get your account back and check if we did everything as we promised. Please remember to change your password after you make sure everything is OK!
7. If you met any problem, please do not hesitate to contact me for help! I am always keeping tabs with my customers via skype or messages!

How we keep your account safe?

1. Do not level your character over 16 hours per day.
2. Never trade gold in the game.
3. Never use bots or something.
4. One IP only for one account in our workroom.
5. Can customers log in the game when we are working? NO. Because if the GM and Game Security System detect the IP changes, your game account might be locked. It takes time to unlock it and it will delay our powerleveling process. This is the most important thing for customers and us. Thanks for your understanding.
6. Please tell us if your account got suspension or banned before this. It is also very important. For these accounts we will do the job much more carefully.

We Promise:

1. We never use BOTS or some kinds software to level your character.
2. We never use your account to farm gold and other illegal things against the game rules.
3. We never steal your game currency or items.

4.We never disclose your private information like account name and character name to others.

Refund

You may request a refund at any time before we complete your order. We will partially refund the payment for the unfinished part.

Contact: via skype mayboz127 or just message me on here! I'll be sure to get back shortly?

I will look at the order and accept it before I ask you for your account details!
