Thread: [Rust Skins](#)

? Heisenberg ? - February 8, 2016, 1:36 pm

How does rust skins work? I know you can craft shit with them and all but I mean.. How do you obtain them? peace.

Hummel - February 9, 2016, 3:38 pm

Obtain skins for Rust?

I'm assuming you mean like Bolt, Pistol, Chest, Clothing skins etc,

You can head over to the market and purchase skins for items, once you've purchased them, they'll appear in game when you try to craft it'll offer you options to change skin on the item before crafting.

Hope that answers your question :)

I think you can only buy them, or kill someone that has it and research it(not sure about the latter one)

It shows the skin to them like it would to you.

Other than they can't craft it (unless they purchase it) there's no difference
