(Feb 9, 2016 01:10 AM)Ted Baker Wrote: [CITE](#) Looking to add some sort of script that when somebody joins my site i get there logins details like password email everything they typed to join. but not sure what i'm looking for could anybody provide me an answer please?

You def. do not want to ask this in the lounge. Move it to the Coding section, and then you will get your solution. ?

opsplayer - February 9, 2016, 12:12 am

Imfao OP's a savage ! cx I need this too ;)

??RSA - February 9, 2016, 12:14 am

I am thinking that all of you are taking this the wrong way. It is his website, and therefor if he needs to ban some one, or go on there account (for what ever reason) he would have all the rights to do so.

Jerry Smith - February 9, 2016, 12:17 am

This is a new level of retard

deiski - February 9, 2016, 12:19 am

you can run but you cant hide
