So on my way to work tonight bought some 1\$ scratch offs won 15 dollars off 5 of them I went back in and cashed them in and got more to push my luck, the first 7 of the 15 tickets were losers the 8th was 75 dollars and the 9th was 200 dollars the rest were losers but hey 275 from originally 5 dollars worth of tickets is great imo

I'm gonna go buy a £1 scratcher in a bit, will edit if I win anything.

Maybe some of your luck with rub off on me. If I lose, I'll just go rub one off.

Haha get it, rubbing on out, rub one off, scratch a scratcher, scratching, rubbing it's all so funny

EDIT: Won £5 ayy cheers for the idea OP
