Thread: [Binding Word Document](#)

M3tch - February 10, 2016, 1:23 pm

Heyo!

I dunno much about this crypter hacking stuff but im wondering if its possible to bind a EXE to a Excel file :P As said, i dont know much about this so sorry for my LQ question, haha :P

yes, you can bind it with any file type

JavvyHavvy - February 10, 2016, 2:30 pm

yes its possible, i even binded a jpg lol

M3tch - February 10, 2016, 2:32 pm

So people can send legitimate Excel files to me wich carries a RAT payload? If so, thats terrible/incredible(lol). But i saw a Excel file builder, but youre saying you can use any binder to connect a EXE to a Excel file? Sorry for the confusion ?

If you bind an exe to an excel file it will always be .exe

You'll need a .doc or .xlsx exploit to actually change the extension
