Thread: [Looking for Doulci Activator](#)

Technerd - February 10, 2016, 2:01 pm

Hi,

Can someone point me in the right direction for the

Doulci activator
Proxy changer and plugin.

Thanks

I could honestly never discern whether this actually was ever a working method. Got a 5C that would be super interested lol.

haha, it was legit. I think the servers went down sometime last year though...they are working on bring them back up...so fingers crossed, make life so much easier.

Also you can now downgrade to customer firm to bypass iCloud anyways, its a little more complex but worth it.
