

Forum:[Hack Forums](#)

Thread: [#1 \[GET\] Top Selling Wordpress Theme\(s\)](#)

1MPERATOR - February 11, 2016, 11:25 am

The new HackForums member [Innovative](#) asked me if I knew a place on HackForums to share this (and probably in the future way more) Paid Wordpress themes.

So: I do NOT take any credits.

If you want to say thank you, in any form, please thank [Innovative](#).

(Feb 11, 2016 02:33 PM)Innovative Wrote: [\[CITE\]](#) Being a noob here has it's drawbacks, so being resourceful I found a way to share and build my rep as well.

I'm always trying to expand my network and enjoyed HF now that I've taken some time to look around. Everything I referred to 1MPERATOR is retail/purchased content. None of it is shit found on the net, wplocker or gaaks. I share these to contribute to the people that want to learn more and test things before choosing to gamble or waste \$60. I'm a member of a private forum and wanting to add quality members. We control the sharing with a ratio, so it's not a place to leech, but for those willing to contribute and share quality things to the group it's a great place to be a member of. Enjoy and I would them keep them here to the group best you can.
