Thread: [How to make simple .exe program](#)

jordan1221 - February 12, 2016, 1:02 am

Hello, I am need of help with creating a .exe program to just open a pop up window with some text on it. Nothing more, no virus or whatever.

I've tried looking everywhere, but I couldn't find it.

Generalissimo - February 12, 2016, 3:19 am

Just take a look at [MessageBox](#).

dionj22able - February 12, 2016, 3:25 am

<http://www.instructables.com/id/How-to-make-a-message-box/>

Its realy easy, just 2 mins work

have a nice day! ?

Spoiler ([Click to View](#))

This isn't a .exe, but it does the same.

yayimamember - February 12, 2016, 4:42 am

Download autohotkey. Save this line as *.ahk

msgbox hello hf

Compile it to exe.

DuguWudi - February 12, 2016, 5:19 am

Code msgbox("hi")

Save the code as hi.vbs. If you want to convert into exe file then use this below.

<http://www.f2ko.de/en/ov2e.php>

or

<http://www.f2ko.de/en/v2e.php>
