Thread: [My newest anime drawing](#)

Croxie - February 12, 2016, 8:00 am

My Digital Art

So I have been drawing on my tablet since last christmas and this is my newest one! ^-^

Opinions would be great as I would like to get better at it.

I have been thinking about starting commissions but I'm not sure if my drawings are good enough to charge money yet. ;-;

But yeah anyway who is a better judge than all you anime lovers out there!

Here is the icon I did before that.

Awful 0/10, this is in now way shape or form an anime drawing, it's just an anime inspired drawing and that's it.

ankitkhosya - February 12, 2016, 7:35 pm

Whats with that outline of the ribbons ew!!!

Zanwald - February 12, 2016, 7:48 pm

I love it. Extremely vibrant. I think there's a little too much pink in the hair though, overpowers the other colors.

Hi,

veteran artist appreciator here, jks.

uhhh, good pic, but from what I see there are certainly many ways you can improve. I'm not being a sucker or anything, but this pic lacks realism. Not as in real life realism but 2d realism. However, if this is your art style, I take all that i said back and say, keep doing what you do!

Fistsworn - February 18, 2016, 9:33 am

I don't like the blurry contour of the bows(I also think you did it unintentionally for technically problems), but that's just cause it bothers my eyes. For thr rest is Purrfect and very cute! 10/10!

Well thanks I appreciate you and your brothers feedback hehe I agree it isn't the best shading and since then I think I have already improved!

For those of you who asked to see more of my drawings here are my two newest ones! They are both still in an anime style! c:
