I believe I probably have one of the most time played accounts on here. Find out yours in your adventurer's log on the RuneScape website.

2100 total level / 80m expThat's still well over 1,000 hours of gameplay. If you played 2 hours a day that's over a year and a half it would have taken you to reach that number.

how the hell does people then manage to get 300 days gameplay
I wouldn't even be able to play for 1000 hours.. without a bot
