Thread: [Clicking specific spots within a window?](#)

Camf ? - February 13, 2016, 12:51 am

Hey guys, I am just now coming back to HF ?

I want to get back into coding, and I was best at VB so I'm starting over and refreshing my memory.

Is it possible to to have specific clicks, clicked, within a window?

My goal is to make a bot for runescape if that helps?

A single script bot.

Is this in vb.net or is the for c#?

If for vb.

SendInput should be used instead of mouse_event.
