Thread: [cute girl xd mass abusing rep with false statements.](#)

XeX Menu - February 13, 2016, 7:11 pm

So earlier today I had replied in a thread where someone called some kid out on having fake power he was trying to sell for ddos as seen here.

<https://hackforums.net/showthread.php?tid=5169196>

Well I had made a comment related to the guys username being strange trying to act like a girl when he's obviously some middle school aged boy and when I get back on today I see a completely false rep left on my profile.

"He wanted me to go first on BTC and refused to use a middleman. Highly sketchy behavior. You have been warned. DWC or DO NOT DEAL."

First off I've never sent this goofy little kid any pm in the first place, let alone anything related to doing business. Not only is he trying to call someone a scammer but he is flat out lying and fabricating an untrue story to try and tarnish someone's reputation related to business. This kid has left this exact same rep on 5 people today and it's just bullshit and should be dealt with for lying and trying to make up stories abusing rep on multiple people in a fraudulent way.

Then to top it off on the same thread listed above this kid admits to scamming people.

Honestly it's annoying for the decent people on here to have to deal with stupid kids like this one here.

Just leave this thread on his profile along with a neg and I'm sure those people who actually take the time to inspect who they're dealing with will see and and ignore.

Honestly I don't even care man. I get tired of people like this on this site and if I would get RF again for doing nothing wrong it shows what kind of man he is.

Yeah I'll just leave a link to this thread on his profile if I need to explain myself to anyone. I rarely do many deals here anymore so it shouldn't be too much hassle.

I don't see any reputation abuse.

Did someone say my name whos least important on this site?

Someone left me a Deal With Caution reputation, isn't that abuse?

We do not consider DWC (Deal With Caution) reputations abuse by itself.

What is reputation abuse?

Reputation abuse can be very complicated subject matter. Here is a list of the following ways reputation can be viewed as abuse.

- Flaming: Using extremely coarse language to describe or berate a member.
- Reputation as a currency: We do not allow the buying or selling of reputations.
- Gang Rep: The act of coordination with other members to raise or lower a member's reputation is not allowed.
- Rep Coercion: Using intimidation, threats, or blackmail to get reps added or removed.
- Rep Requesting: You cannot give hints, tips, or request reputations.
- Scammer Reputation: You're required to leave a link to a Deal Dispute thread you have created to infer someone is a scammer (ie: scammer, scams, chargebacks, scamming). Please note that a Deal Dispute link must be your own thread you've created. It cannot be a thread opened by another member.
- Deal Dispute Linking: We don't allow you to link to a Deal Dispute forum thread that's opened by another member.
- Reputation Collusion: Agreeing to participate in reciprocal reputations with a member.
