r3tsquad - February 14, 2016, 3:22 pm

Good evening gentleman r3t is back

First things first lets get something straight, this group is going to have a limited time period on it. My old 3 groups that I ran had no set date which was a mistake and pissed some people off when I did end it (Had a chance to study abroad for 3 months and had no more time to chill with you homies, I guess some virgins needed extra attention so they hacked my old Skype as well, don't know if I still have access). Now that we've got that out of the way lets get down to business. Something new I will also be offering certain days is live betting.

Here are some of my live bets I did before I took a break

*Please note live betting is not included it's just something I will do with the group if I have time or if I'm available, it will happen though :) Think of it as a bonus

Here is my old 2 threads for point of reference:

<https://hackforums.net/showthread.php?tid=5012873>

<https://hackforums.net/showthread.php?tid=5079838>

If you are skeptical with how I bet or how accurate that thread will be good to some of those questions, I would say about 90% of my 200 members were satisfied with their experience.

Group Start Time: February 15th 2016

Group End Time: April 20th 2016

*Also note NBA doesn't start again until the 18th

*Please note the group entry fee is the same whether you decide to join today or April 1st so the earlier you get in the better

Group Entry Fee: \$40 BTC (One time Payment)

Group Limit: As many as you want I have lots of experience and feel comfortable with this

How is the group ran?

I run the group via Skype, I will put in a notepad of bets every morning for you to view.

How many bets a day?

Typically I give out about 2-4 bets a day, once MLB season starts probably around 3-7

Do you bet point spreads and o/u as well?

Yes, I cover both spreads and over under if I feel its the best for that game

Will you give us sites to bet on?

Yes, I will give out a list of sites to find one that's right for you.

Do you do live betting as well?

Yes, I will every now and then when I have time for anyone interested.

(Some live bets I did a while ago when I had time)

Spoiler [\(Click to View\)](#)

Will this work in any country?

Yes, there are multiple betting sites that take BTC worldwide

Is there an age limit to this?

No, there is not.

How long is this group guaranteed?

February 15- April 20th 2016

T.O.S

- 1.If you are found leaking any bets or tips you will be removed from the group
- 2.Just don't be an ass to other people, everyone learns at their own pace
- 3.Refunds are available but unlikely

GreyHatZone - February 14, 2016, 3:23 pm

Any vouch copies?

I could join your group for a couple bets and give my experiences with the group!

LilDurk - February 14, 2016, 3:26 pm

If you are giving out a vouch copy that'll be great

r3tsquad - February 14, 2016, 5:05 pm

I have over 30+ pages of vouches and had over 200 HF members already test this out, no reason to give out vouch copies.

Gustav - February 14, 2016, 7:03 pm

R3tsquad showed me this method and it was incredible. Definitely look into this if you're willing to make some cash!

I joined r3t's previous group and I was in it for quite a few months. I can definitely vouch for the predictions, there was a very high % of bets win. I'm completely honest. There was a rough patch where we had some incredibly unlucky games, but overall, as long as you don't do stupid bets and bet all that you have on one game, you will definitely make money over time.

I too was in the last group. The key is patience and doing as told. I remember users in the last group had problems making the bets that result in loss meanwhile the actual bet that was given usually won. I highly suggest this group to make money or even for fun if you're a sports lover. Good luck with sales man.

Have responded to everyone interested, NBA resumes tomorrow!

.BangsOnly - February 17, 2016, 2:33 pm

Hi I am interested in this but first I have to state I have no betting experiences though.

But I do have a lot of freinds that do middle man betting for NBA games
I do know they bet by over or under. For example the host will look the game of the night (NBA) and set a number and we the betting side has the choice to play over or under if we feel like betting.
Now my question is will you be able to give me your tips in this way of betting?
If so Id like to be part of the group

Thanks

Hahahaha I don't think anyone predicted that bro, I did however skip that game because I thought an upset was 50/50, close enough ?
