Nex+ - February 15, 2016, 7:42 pm

Welcome to our official group, Eternal. Eternal is comprised of some of the most talented and skilled businessmen and marketers. Each member of Eternal has been carefully hand-selected from a wide array of criteria. This ensures that every user representing our brand is an expert in their respective fields. Eternal is remaining invite only for the time being. The overarching purpose of this group is to give back to HackForums and to help enhance the marketplace. At the present moment, Eternal is working on a few projects within its own subforum, and in due time, they will eventually be released for the public to view and enjoy. We are co-operating with [Mr Kewl's OTB](#) group, which has a similar set of goals and ideas in mind. Both groups are using Eternal's subforum as a medium of communication, and as a result, if you were to view the [/showgroups.php](#) page of HackForums, you will see a significant disparity in the member count which we have displayed in this post. Do not fret, the extra member count is due to our combined venture with OTB, and the fact that OTB's members are utilizing our subforum for now.

The userbar is really good. I would've actually bought in this time if there was buy-ins.
