Hey guys I have made a PSD mainly for use with Steam Avatars
It is fully original I created it

The included letters are A B D E F M N O R U V W Y
due to the font and style I used not all letters were able to be made

Here are some examples

[LINK to the Steam PSD](#) (184x184 px)

[LINK to the HF PSD](#) (120x120 px)

[LINK](#) to original background image

Font used Megrim slightly edited

If there are any issues please let me know

Thanks guys,
According.

Nice work man, you've always been good with photoshop. You still using these as avatars?

Looking good not bad. Did you consider to use #333333 for as HF background color? Then it'll look transparent.
