Thread: [\[C#\] PROXY ROTATOR - NEVER SEEN BEFORE \[\\$4.99 - LIFETIME\]](#)

Verizur - February 16, 2016, 3:44 pm

This program is developed mainly to add more security when using the Internet.
It is designed to fit your needs!

Depending on what activities that you are doing, using proxies used by others are usually good for anonymity as it's harder to trace the activity to one user.

Features

- [*] Rotate function (change IP every x seconds)
- [*] Multithreaded
- [*] Proxy checker
- [*] Import proxies
- [*] Proxies included!

Instead of paying for a monthly license, we only sell lifetime licenses.
This means that you will be able to use this program any time that you want.

The price for each copy is only \$4.99. We accept both PayPal and Bitcoins as payment methods.

I am interested in acquiring this project, let me know how much you are willing to sell it for.

handsomedevil - February 16, 2016, 9:28 pm

can i get vouch copy ... thank you ...

Verizur - February 16, 2016, 9:45 pm

This project has been sold to 143 for a undisclosed amount.?
