Thread: [AI - Unofficial group - Mr. Robot](#)

Mr. Robot - February 17, 2016, 10:29 pm

Welcome to my new unofficial group based around Artificial Intelligence, we are a group of people who are focused on the research and development of AI.

We will be primarily working with Raspberry Pi's and if you can't afford one, and prove that you are willing to learn and help, I will fund one for you.

I have a tonne done already including pulling resources and calculating responses - voice to text then the AI responds, visual recognition done and working on adding a databank for collective "thought".

I want this project to be something hackforums users can be proud of.

Working on a website currently - Also working on an animated interface such as the image above for voice response.

I have been working on this for a long time and hope we can make something better!

Application:

Skype/Xmpp/Other - means of contact:

Coding languages:

Previous experience or desire to work on something like this?

Will you be active?

Do you own a Pi?

If anyone feels like creating a signature or wish to help with creating a website for the group, that would be absolutely amazing.

Also a visual interface for the AI will be created at a later date if you are versed in animating text to speech.

Doxicity - February 17, 2016, 10:49 pm

Pretty cool topic for a group, I wish you the best with it.

Mr. Robot - February 17, 2016, 10:51 pm

(Feb 17, 2016 11:49 PM)Doxicity Wrote: [\[CITE\]](#) Pretty cool topic for a group, I wish you the best with it.

Thanks man, hoping to develop something that hackforums as a community can be proud of and people can say - Hackforums members/users developed that.

CyberGuard - February 17, 2016, 10:52 pm

I've always been interested in AI programs.

Afraid I don't have time to put into it now though.

I wish you the best of luck with the group bro :)

Cryptic™ - February 17, 2016, 10:54 pm

Really interesting group. I look forward to seeing what you guys come up with.

BeNT- - February 17, 2016, 10:56 pm

Wow seems Like an awesome project man.

I may be interested in helping out with this (if I can) in the coming weeks.

Either way good luck with the project!

Cheers

B.

The Dark Hacker - February 17, 2016, 10:57 pm

Cool group bro, I don't know coding languages much. Good luck.

problems.x - February 17, 2016, 10:58 pm

Buy me a raspberry PI and i'm in fam <3 u got my skype already homie

Deany - February 17, 2016, 11:04 pm

When is this going to be official?

DARPA - February 17, 2016, 11:09 pm

I always figured that in the near future we will be using holographic user interface. The logistics of such a feat however...

crazyycast13 - February 17, 2016, 11:14 pm

Uh... I hope you realize that AI requires university level understanding of coding theory, it's insanely hard to be self taught. If you are really interested in things like this, see if you can work under a professor who studies AI.

WOLGA - February 17, 2016, 11:21 pm

Do you have any experience in AI? Have you any progress? What is your ultimate goal?

Mr. Robot - February 17, 2016, 11:35 pm

(Feb 18, 2016 12:14 AM)crazyycast13 Wrote: [\[CITE\]](#) Uh... I hope you realize that AI requires university level understanding of coding theory, it's insanely hard to be self taught. If you are really interested in things like this, see if you can work under a professor who studies AI.

Thanks for your input - I have studied this for a long time now and I believe with the right group of minds and creativity, we can use this as a learning curve and adventure through which we might succeed in creating something self aware or just end up creating something absolutely amazing as far as artificial intelligence goes.

Creating a self aware AI has not only been a struggle, but a debate on whether something like that could even exist, creating something run on algorithms and pattern recognition is definitely possible and that's what we are aiming to create.

I hope this clears any confusion.

I mean, if we were to find a way to make it self aware (lol) then we would of course have created something not only awesome but revolutionary.

WOLGA - February 17, 2016, 11:40 pm

What is your experience in AI, and what progress have you made?

Mr. Robot - February 17, 2016, 11:40 pm

(Feb 18, 2016 12:09 AM)B4SEM3TAL Wrote: [\[CITE\]](#) I always figured that in the near future we will be using holographic user interface. The logistics of such a feat however...

Have a read through this :)

<http://arstechnica.com/gadgets/2015/01/microsofts-new-interface-freaking-holograms/>

(Feb 18, 2016 12:40 AM)Qwertuioasdfghjklzxc Wrote: [\[CITE\]](#) What is your experience in AI, and what progress have you made?

Progress is written above in short, wont discuss the full details of what I have completed so far as it may cause some confusion.

I worked on robotics for almost 2 years at MIT (Was never that great at it) just over 5 years ago now, have recently been encouraged to pick up an old project and continue with it as I have around 10 hours of spare time a day for the next 6-12 months.

My experience in artificial intelligence only reaches as far as a 4 months course by a man named Professor Norvig, this was all theory and what had already been accomplished.

I wish to share with the group my current knowledge to help get the ball rolling with ideas and create a new kind of AI besides the automation of cars and traffic systems.

crazyycast13 - February 17, 2016, 11:47 pm

(Feb 18, 2016 12:35 AM)Mr. Robot Wrote: [\[CITE\]](#) Thanks for your input - I have studied this for long time now

What have you studied?

Mr. Robot - February 17, 2016, 11:47 pm

(Feb 18, 2016 12:04 AM)Japanese Wrote: [\[CITE\]](#) When is this going to be official?
When I buy Null... Jokes - not that rich.

(Feb 18, 2016 12:47 AM)crazyycast13 Wrote: [\[CITE\]](#) What have you studied?
Damn that quote made me sound Indian.
Typos, Typos everywhere.

I have studied theoretical uses of AI and the real world applications.

WOLGA - February 17, 2016, 11:54 pm

I will announce my interest in this project in the form of an application

Skype/Xmpp/Other - means of contact: PM

Coding languages: C, C++, Java

Previous experience or desire to work on something like this? No formal experience

Will you be active? Yes, but I do not plan on a big commitment or contributions

Mr. Robot - February 17, 2016, 11:59 pm

(Feb 18, 2016 12:54 AM)Qwertuioasdfghjklzxc Wrote: [\[CITE\]](#) I will announce my interest in this project in the form of an application

Skype/Xmpp/Other - means of contact: PM

Thank you for showing interest in this, I will be finishing a few touches on what I already have as it might seem a few people don't currently have Pi's.

I will try get a tutorial ready for those interested to run on linux for testing instead.

Raymond Reddington - February 18, 2016, 12:01 am

Something unique. Looks good.

Good luck.

Mr. Robot - February 18, 2016, 12:04 am

(Feb 18, 2016 01:01 AM)Raymond Reddington Wrote: [\[CITE\]](#) Something unique. Looks good.

Good luck.

Thanks man, the final results will be readily available to all Hackforum members and hopefully inspire those interested in the subject.

Alice Dee - February 18, 2016, 12:47 am

Would be good to see this as an official group one day if a few people actually stick to it and are completely interested in AI.

Best of luck with this group, Mr. Robot.

Mr. Robot - February 18, 2016, 1:12 am

(Feb 18, 2016 01:47 AM)Alice Dee Wrote: [\[CITE\]](#) Would be good to see this as an official group one day if a few people actually stick to it and are completely interested in AI.

Best of luck with this group, Mr. Robot.

Thanks man, I don't know if enough people would be interested to make it an official tech group but I guess only time and learning will tell.

Fudster - February 18, 2016, 1:15 am

This looks like a sweet project that I am going to follow.

I have a Rasp PI. (well its not with me)

But sadly I don't know coding.

Will be following this subject.

brujo - February 18, 2016, 1:29 am

You already have my skype, I'll help when I can.

Remix - February 18, 2016, 1:36 am

(Feb 18, 2016 01:47 AM)Alice Dee Wrote: [\[CITE\]](#) Would be good to see this as an official group one day if a few people actually stick to it and are completely interested in AI.

Best of luck with this group, Mr. Robot.

Once it becomes an official groups people won't join because they're interested

Skype/Xmpp/Other - means of contact: Skype: remix.michi

Coding languages: C, C++, Java, Python (and some more but they are irrelevant)

Previous experience or desire to work on something like this? No experience yet but I'm highly interested.

Will you be active? Yes

Do you own a Pi? No, but that's not a problem

?MIN?M - February 18, 2016, 1:47 am

Sounds invitational, I hope something great comes from your project! I wanna see where it's

progressed to in the months to come. I'm not a Pi guy or a coder or i'd try to contribute.

Omoi - February 18, 2016, 3:27 am

Hey, really nice group and hope it works out, how much are Pis ATM, not used one in 3 years and it was just basics

Mr. Robot - February 18, 2016, 4:48 am

(Feb 18, 2016 04:27 AM)Jennette Wrote: [\[CITE\]](#) Hey, really nice group and hope it works out, how much are Pis ATM, not used one in 3 years and it was just basics
Pis are like 50 US from memory. :)

Omoi - February 18, 2016, 4:57 am

(Feb 18, 2016 05:48 AM)Mr. Robot Wrote: [\[CITE\]](#) Pis are like 50 US from memory. :)
so like £30 guess ill invest in 1 when i get tired of my new pc

Hash G. - February 18, 2016, 5:31 am

Skype/Xmpp/Other - means of contact: Skype : hashg.hf - XMPP : 2577525@hackforums.im - XMPP : 2577525@exploit.im

Coding languages: I'm mostly on Web Development (HTML/CSS, PHP, JS, with their respective frameworks) but I'm currently learning C++ and already have basics of C.

Previous experience or desire to work on something like this? No previous experiences but AI always have interested me. I never had the motivation to work alone on one so I thought being apart of a group could help.

Will you be active? I wouldn't be applying if I don't plan on being active.

Do you own a Pi? I own 2 Pi's (Pi B & Pi 2) and I'm looking to purchase a third (Pi 0).

Cammy - February 18, 2016, 5:36 am

I'm all game for AI and artificial neural networks but I don't have any knowledge to help with development

Heck, I barely know anything about the subject at all.

Is there a way we can observe the progress the group will make without being a member?

Mr. Robot - February 18, 2016, 6:14 am

(Feb 18, 2016 06:36 AM)Cammy. Wrote: [\[CITE\]](#) I'm all game for AI and artificial neural networks but I don't have any knowledge to help with development

Thinking about having some "creative thinkers" added to the group - feel free to flick a PM through or tell us a little about yourself and mindset.

Cammy - February 18, 2016, 6:16 am

(Feb 18, 2016 07:14 AM)Mr. Robot Wrote: [\[CITE\]](#) Thinking about having some "creative thinkers" added to the group - feel free to flick a PM through or tell us a little about yourself and mindset.

I won't be of much help until you're far enough with development to teach the AI about things like ethics. And yeah, that's far far away from now.

Vellichor - February 18, 2016, 6:34 am

Skype/Xmpp/Other - means of contact: Skype. PM.

Coding languages: C/++

Previous experience or desire to work on something like this? Working on a machine-learning firewall.

Will you be active? Relatively.
Do you own a Pi? No.

Mr. Robot - February 18, 2016, 6:34 am

(Feb 18, 2016 07:16 AM)Cammy. Wrote: [\[CITE\]](#) I won't be of much help until you're far enough with development to teach the AI about things like ethics. And yeah, that's far far away from now.
Alright! I will keep you in mind.

Freerunning - February 18, 2016, 4:16 pm

This looks very interesting. I wanna do something like this but sucks I only knew Web programming and PIs here are pretty expensive.

?ing - February 18, 2016, 4:18 pm

Pretty nice thing you are doing for the people who might not be able to afford them but are willing to learn.

BobDarling - February 18, 2016, 7:13 pm

Skype/Xmpp/Other - means of contact: Anything but skype or fb.
Coding languages: JS(fullstack), c#, php, a bit of java, a bit of c, and many others.
Previous experience or desire to work on something like this?
I have tried to build a few neural network but i hit senility point everytime. I havn't the methods, but i got the strong background needed for that kind of research.
Will you be active?
Yep
Do you own a Pi?
Owning something like 5 to 10 pi, V1 and V2. I have less micro(or mini ?) usb wire than raspi... :)

Read that post on the enigma recruit thread to have more info on my background =>
<https://hackforums.net/showthread.php?tid=5170501&pid=49872775#pid49872775>

L?YLE - February 18, 2016, 10:58 pm

Lol. I my "accountary" teacher thinks AI is impossible, but I always said it's possible. So he said, if I make a AI i'm allowed to use it in exams. Since then I got always 1s xD

Mr. Robot - February 18, 2016, 11:01 pm

(Feb 18, 2016 11:58 PM)L?YLE Wrote: [\[CITE\]](#) Lol. I my "accountary" teacher thinks AI is impossible, but I always said it's possible. So he said, if I make a AI i'm allowed to use it in exams. Since then I got always 1s xD
Haha I guess he is talking mainly about it being self aware, while that *May not be possible, it's worth a shot and there are some brilliant aspiring minds on here.

iamnotsure - February 18, 2016, 11:10 pm

Skype/Xmpp/Other - means of contact: skype
Coding languages: none
Previous experience or desire to work on something like this? /
Will you be active? yes
Do you own a Pi? yes

Chaoarii - February 18, 2016, 11:21 pm

Application:

Coding languages: Java, and most website languages. I know the basics of the common languages such as Python and C++ etc.

Previous experience or desire to work on something like this? Yes I did, but the way I do it is just basically a database where the user input something and the A.I response via the database.

So basically what I did:

If

Input = "something in the database" response something

Else

I don't know what you talking about

Will you be active? Of course.

Do you own a Pi? Sadly no :(

I have been always thinking to create a "real" A.I but its very unlikely that I can do that by my own. In my opinions, a real A.I must be able to learn and not just responding from a database.

Dude why?? Lol - February 18, 2016, 11:30 pm

Skype/Xmpp/Other - means of contact: I have Skype.

Coding languages: I am learning C#. Due to my exams I will not be able to learn it. I will dedicate time to learn this after one month.

Previous experience or desire to work on something like this? I have desire to work on something like this. I am inspired by the movies and games that contain AI.

Will you be active? Yes I will be active.

Do you own a Pi? No. I will buy one when I have money.

Cammy - February 19, 2016, 5:55 am

(Feb 19, 2016 12:01 AM)Mr. Robot Wrote: [\[CITE\]](#) Haha I guess he is talking mainly about it being self aware, while that *May not be possible, it's worth a shot and there are some brilliant aspiring minds on here.

The way I see it you can't test whether an AI is really self-aware, or if you're just being fooled with incredible accuracy.

Mr. Robot - February 19, 2016, 6:00 am

(Feb 19, 2016 06:55 AM)Cammy. Wrote: [\[CITE\]](#) The way I see it you can't test whether an AI is really self-aware, or if you're just being fooled with incredible accuracy.

Hey, I'll settle for the accuracy :D

Cammy - February 19, 2016, 6:01 am

(Feb 19, 2016 07:00 AM)Mr. Robot Wrote: [\[CITE\]](#) Hey, I'll settle for the accuracy :D

Better build a fail-proof switch, we don't need to realize the Skynet concept

(^:

(Feb 19, 2016 07:01 AM)Cammy. Wrote: [\[CITE\]](#) Better build a fail-proof switch, we don't need to realize the Skynet concept

(^:

Damn straight - this will be the "Hackforums mishap"

The year 2300. The last few humans surviving. Hiding from.

l33th4x0r

Excaahhh - February 19, 2016, 6:06 am

Looks interesting, I'll have to decide. Good Luck tho.

Llama™ - February 19, 2016, 6:11 am

Skype/Xmpp/Other - means of contact: You have my Skype added but you can PM me for it. My XMPP is darkllama@darkjabber.cc

Coding languages: JavaScript, Python, C#, Java (some others but I thought this would be important mostly)

Previous experience or desire to work on something like this?: I've developed AI before in Java. Just a random chat bot. Nothing special. But yes, I have both experience and desire to work on AI.

Will you be active?: Yes. I'm on my PC every day so I'll always (almost) be active.

Do you own a Pi?: I've been planning to buy one but don't have the funds currently. This is of course depending on what Pi you're talking about. I can afford the Zero.

morph - February 19, 2016, 6:53 am

Skype/Xmpp/Other - means of contact: I have you on Skype.

Coding languages: The only one you need to know is C.

Previous experience or desire to work on something like this? Not with A.I., and yes.

Will you be active? Yes.

Do you own a Pi? Yes, 2. 1 I can't use for this and the other one has no SD card atm.

Night Fury - February 21, 2016, 6:31 am

This sounds like a solid group, and Mr. Robot is a nice guy. Good luck with your project. It would be interesting to hear about your progress on this down the road.

Good luck with the group and to all those who join.

Mr. Robot - February 21, 2016, 6:33 am

(Feb 21, 2016 07:31 AM)Night Fury Wrote: [\[CITE\]](#) This sounds like a solid group, and Mr. Robot is a nice guy. Good luck with your project. It would be interesting to hear about your progress on this down the road.

Good luck with the group and to all those who join.

Thanks man, I have spoken to a few members privately but have only accepted one member so far. I'm not ignoring the other applications - Just waiting for some of my new equipment coming sometime today to get a video demonstration ready.

The site is under way and looking good from what I can see, another user kindly stepped in to help with it.

Will be messaging a few of the applicants in a couple days once I have filtered through what this group needs.

Ooze - February 21, 2016, 6:35 am

Though I wouldn't be very helpful I would be interested in how this goes.

Keep me updated.

You know how to contact me :)

Mr. Robot - February 21, 2016, 6:37 am

(Feb 21, 2016 07:35 AM)C0deZilla Wrote: [\[CITE\]](#) Though I wouldn't be very helpful I would be interested in how this goes.

You know how to contact me :)

Indeed I shall - You are more than welcome to be an outside tester, review and give your opinion on progress as a consumer standpoint.

Always good to get ideas from those not directly involved.

Travis Bickle - February 21, 2016, 6:46 am

This looks very interesting, I don't have any experience with Raspberry Pi. Best of luck with this group and keep me updated.

Scymo - February 21, 2016, 6:54 am

Skype/Xmpp/Other - means of contact: I can pm you my skype, i also have xmpp.

Coding languages: Java, Javascript, VB, Python

Previous experience or desire to work on something like this? This is one of the most amazing ideas i've ever heard. I love the concept of artificial intelligence, i think with the minds we have we can incorporate some awesome automation technology with the raspberries.

Will you be active?: Absolutely! I'm on my computer every single day, and this is a way better way to spend my time than playing csgo.

Do you own a Pi?: I don't have the funds to buy one at the moment, unfortunately. I recently used my savings to fix my car.

Kioshima - February 21, 2016, 8:46 am

I really hope this becomes an official group, looks amazing.

Abathur - February 21, 2016, 9:02 am

Application:

Skype/Xmpp/Other - means of contact: Yes I do have skype and a jabber account.

Coding languages: Python and C/C++

Previous experience or desire to work on something like this? Immense desire and interest in robotics and AI.

Will you be active? Very active

Do you own a Pi? Yes I own two

SIM-2848947 - February 22, 2016, 11:26 pm

Skype/Xmpp/Other - means of contact: Will PM if I get accepted. Mainly use skype or discord but I do have Xmpp.

Coding languages: PHP, Js, C# and Java. Currently learning Python.

Previous experience or desire to work on something like this? I've always loved AI's. I've built a few path finding algorithms at home before and in school, we had a contest to build a robot that we could control around a maze. Me and a few friends wrote an AI that did all the work for us. We got disqualified because it didn't detect where other robots were and kept ramming them.

Will you be active? Yes. This is something I'd love to get involved with and would be open to giving it my time.

Do you own a Pi? No. I have a spare desktop with a clean install of ubuntu on it so I could probably get an OS similar to Raspbian.

SIM-1073426 - February 23, 2016, 2:42 pm

Skype/Xmpp/Other - means of contact: PM for xmpp or Skype

Coding languages: PHP and Python

Previous experience or desire to work on something like this?

I've worked with Smart Homes and general AI and got an overall interest in the subject and machine learning.

Will you be active? Yes

Do you own a Pi? I got 5 lol

??? ??? - February 23, 2016, 4:55 pm

Skype/Xmpp/Other -Skype

Coding languages:html, html5, css, php

Previous experience or desire to work on something like this? NO

Will you be active? Yes

Do you own a Pi? No but I have before and can purchase one again.

Extra: I have fiber opt internet super fast speeds not sure if this can help in any way.

Mr. Robot - February 23, 2016, 7:28 pm

I just have to chuck this in, here because I am amazed at how many people are interested.

Thank you all so much for taking the time to have the aspirations and encouragement to apply - It really means a tonne to me and I will never forget this.

There is no userbar or official group to represent and yet so many of you still want to participate in this amazing project.

I have added all of your names to a list and will PM each of you over the 14 days while I finish up the website.

Cheers guys.

Chaoirii - February 23, 2016, 8:32 pm

(Feb 23, 2016 08:28 PM)Mr. Robot Wrote: [\[CITE\]](#) I just have to chuck this in, here because I am amazed at how many people are interested.

Nice to see this project is going on ?

stdio - February 23, 2016, 10:47 pm

Would be very beneficial for learners, good luck mate. Great field of study AI.

Mr. Robot - February 23, 2016, 10:51 pm

(Feb 23, 2016 11:47 PM)Homi Wrote: [\[CITE\]](#) Would be very beneficial for learners, good luck mate. Great field of study AI.

Thanks man, I actually haven't seen you around before so it's nice to see support and encouragement from people I haven't personally dealt with in the past.

Innocent Vigilante - February 23, 2016, 10:53 pm

Just dropping a vouch for my friend Mr. Robot, He knows his stuff when it comes to this topic and he is a great guy to talk to, don't doubt for a second that this group will go well under his leadership.

ng-Coder - February 23, 2016, 11:49 pm

Skype: Ng.coder

Coding languages:

ASM

C

C++

Objective C

swift

VB and .Net

PHP and some web scripts

Previous experience or desire to work on something like this?

Not really, Did little AI study as part of my old data compression project.

Will you be active?

Yes as of now, and if nothing change my plan.

Do you own a Pi?

No.

DLuciferGrey - February 24, 2016, 1:00 am

Pm for Skype :)

Coding languages:

Java,C,Perl currently working on learning Python

Previous experience or desire to work on something like this?

Don't really have experience but am really interested to learn and contribute as the idea of a AI is interesting

Will you be active?

Yes and will contribute as much as i can

Do you own a Pi?

Yes

? **Eugtique** ? - February 24, 2016, 5:17 am

Hey Mr. Robot, i'm interested to join your group :3

We've talked a bit via pm and skyoe. We're already on skype :p

I'm learning c# at uni.. how can i join bro?

Mr. Robot - February 24, 2016, 5:21 am

Coding languages: C/++

Previous experience or desire to work on something like this? Working on a machine-learning firewall.

Will you be active? Relatively.

Do you own a Pi? No.Am I denied, ignored, or under process?

Ghost Rider™ - February 26, 2016, 10:19 am

I will be looking forward to see what you guys do and how it plays out.

Princeton - February 28, 2016, 3:36 am

I'm very interested about this subject, I actually joined a club in college to learn about robotics and AI, we started with basic concepts, Sensors.. then we did some programming with Arduino. I would love to join the group, I have a few things to share and a lot to learn.

Skype/Xmpp/Other - means of contact: Skype: adesigns@outlook.com

Coding languages: JavaScript, Ruby. (Learning Python)

Previous experience or desire to work on something like this? Worked on simple robotics and sensors, Used and programmed Arduino, learned welding components.

Will you be active? Yes

Do you own a Pi? No, But can get one.

Viktory - February 28, 2016, 8:35 am

I'm sorry you guys are way in over your heads, watching ex machina and then googling intro to ai and computing switch case statements on a pi isn't even scratching the surface

but gl to all

Mad76e - February 28, 2016, 9:57 am

One of few groups i actually might join. i own a Raspberry Pi B model, I will say no at programming and you got my skype already

?Citizen Z / Napalm - March 5, 2016, 3:15 am

Skype/Xmpp/Other - means of contact: PM Me For My Skype

Coding languages: HTML, PHP, CSS, VB.Net, Python, Bash

Previous experience or desire to work on something like this? Just the general idea of an AI raspberry pi cluster

Will you be active? Yes!

Do you own a Pi? No, but i should be getting one soon.

HIGH PAID FELLA - March 5, 2016, 5:55 am

Sounds pretty interesting, count me in if you deem me worthy. Would love to discuss general InfoSec, OPSEC, malware and such.

Incognito™ - March 5, 2016, 8:39 am

The machine? It's real?

Hidden away in some dod building controlled by Mr. Robot.

Varane - March 5, 2016, 8:43 am

This group seems like some spooky Illuminati scheme.

J. McCarthy - March 5, 2016, 9:12 am

Posting to remember this

Very nice

Katarina Du Couteau - March 6, 2016, 2:59 am

Skype/Xmpp/Other - means of contact: XMPP - katarina@pimux.de, PM

Coding languages: Phyton

Previous experience or desire to work on something like this? Ive done some basic text games in Phyton, where you can "talk" to AI, etc. I'd really like to help out.

Will you be active? I am on very often, and I can be really dedicated.

Do you own a Pi? No, but I could buy one easily.

python1 - March 7, 2016, 6:00 am

Skype/Xmpp/Other - means of contact: I prefer Gmail, but if you can't then just PM me to go with Skype or Xmpp.

Coding languages: I'm in the process of learning python the best I can.

Previous experience or desire to work on something like this? Big desire, but no experience.

Will you be active? As much as possible.

Do you own a Pi? No
